We the Class of 1968 respectfully and affectionately dedicate this yearbook to
Mr. John Walsh; our teacher, advisor, and friend.

TO SIR WITH LOVE

Don Black and Marc London

Those school girl days of telling tales and biting nails are gone,
But in my mind I know they will still live on and on,
But how do you thank someone who has taken you from crayons to perfume.
It isn't easy but I'll try.
If you wanted the sky I'd write across the sky in letters that would
soar a thousand feet high

To Sir, With Love.

The time has come for closing books and long lasts looks must end
And as I leave I know I am leaving my best friend,
A friend who taught me right from wrong and weak from strong that's a lot to learn.
What! what can I give you in return,
If you wanted the moon I would try to make a start
But I would rather, you let me give my heart
To Sir, With Love.

Those awkward years, have hurried by why did they fly away

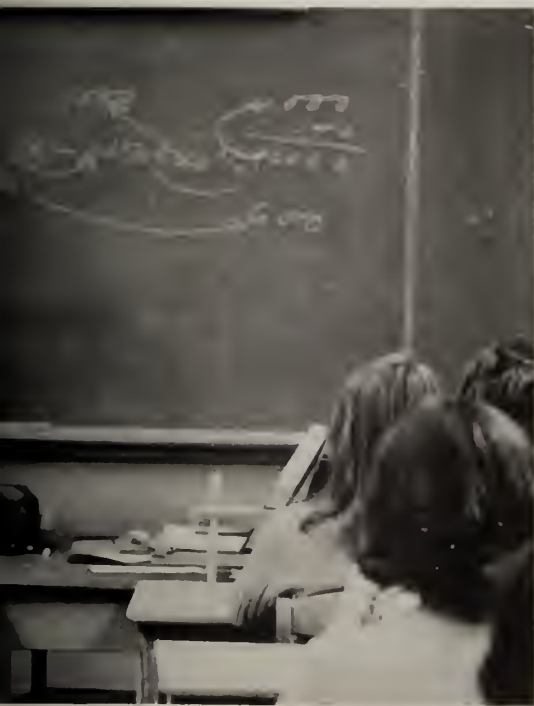

Why is it Sir children grow up to be people one day,

What takes the place of climbing trees and dirty knees in the world outside.

What is there for you I can buy,
If you wanted the world I'd surround it with a wall I'd scrawl
These words with letters ten feet tall
To Sir, With Love.

DEDICATION

Another school year has ended and everyone cheers because the exams and the term papers are over until September. But the dances, the cheerleading try-outs, the football season, and the elections are over, too, and no one wants to forget them. The ECHO is published to echo the music of those bands, the shouts of those cheerleaders, the yells of those football fans, and the speeches of those candidates. Its purpose is to help us remember the good times we have had and the scholastic and athletic feats we have achieved in 1967–1968.

This could never have been accomplished without the aid of our advisors Mr. Robert Kindelan and Mr. Thomas Young who devoted much time and gave infinite patience to an inexperienced but willing staff. The ECHO editors would like to thank all those who worked so diligently to make this yearbook a reality.

WILLIAM T. BUCKLEY

Principal

"We need some imaginative stimulus, some not impossible ideal such as may shape vague hope, and transform it into effective desire, to carry us year after year."

Theodore Parker

At one time during his life, everyone needs an inspiration, an idol. It may be anyone from Ringo Starr to John F. Kennedy, but it is someone whom we respect and admire for many qualities. The students of Holbrook High School do not have to look far for their example of leadership and understanding which they might try to imitate. Our principal, Mr. William Buckley, has set these examples for us, and it is up to us to develop our own character and determination, enabling us to follow the precedent of such a man.

FACULTY

Ideally, education should inspire a student and lead him toward greater truth. At Holbrook High School, the faculty is a vital aspect of an atmosphere which is conducive toward supplying the guidance which is necessary to a student's search for knowledge. This faculty successfully attempts to explore and to challenge a student's convictions. Thus, ignorance and innate prejudice are revealed. The impact which such instructors have on their students is immeasurable; for "no bubble is so iridescent or floats longer than that blown by the successful teacher."

ACTIVITIES

ACTIVITIES

Not all the education which we acquire at Holbrook High School is found in the classrooms between 8:00 and 2:30 each school day or even between the covers of our textbooks. A great deal of learning and enjoyment is gained from our extracurricular activities.

Our school offers many clubs to serve a variety of interests. All that is required of the student is the desire to pursue an activity of his choice or the ability to measure up to certain standards as in the National Honor Society. In the classroom each student is a part of the class as a whole, but after school each club member is an individual competing in its chosen field.

These activities would not be available if we did not have so many unselfish teachers willing to devote their own time for our enjoyment and further education.

Who knows how many Frank Sinatras and Diana Rosses the Glee Club has produced or how many politicians the Student Council has sent into the world? And who can measure the amount of knowledge we have absorbed painlessly through entertainment?
